

Corgi Mittens

I know corgis are a pretty specific pattern, but you could easily adapt this pattern to add a silhouette of your own dog.

This pattern is made to fit a hand that is about 6 1/2 inches around and 6 3/4 inches long (from the wrist to the tip of the middle finger). If you want to make a bigger size the easiest way is to knit it in a larger gauge.

Supplies:

- Two balls sock weight yarn (about 250 yards each, though you'll only use about half for the white), one ball in each color
- Four size 1 double-pointed needles (or size needed to get gauge)
- Three stitch markers
- Tapestry needle
- Scrap yarn

Gauge: 9 stitches and 11 rows per inch

Abbreviations:

- K = knit
- P = purl

- Kfb = knit twice into the same stitch, once into the front and once into the back increasing one stitch
- K2tog = knit 2 stitches together, decreasing one stitch.
- Ssk = slip two stitches as if to knit, return them to the left needle and knit them together, decreasing one stitch.
- M1r = Pick up the yarn between the needles with the left needle from back to front. Knit through the front of the loop you created. Increases one stitch.
- M1l = Pick up the yarn between the needles with the left needle from front to back. Knit through the back of the loop you created. Increases one stitch.
- Sl = Slip maker

Cuff:

With main color cast on 65 stitches. Divide between three needles. Join to knit in the round. Place a stitch marker between the first and last stitch to mark rounds.
