

# Knit Matryoshka Doll

## Supplies:

- Worsted weight yarn in three colors. You really just use scrap amounts here.
- 4 size-2 double pointed needles
- Tapestry needle
- Stuffing
- Rock or other heavy object to weigh the bottom of the doll down (optional)
- Scissors
- Small circle of felt in color of your choice for the face
- Embroidery floss for face and hair
- Embroidery needle
- Pink colored pencil
- Fabric or tacky glue

## Gauge:

7 stitches = 1 inch in Stockinette Stitch

Gauge is not super important here you will just get a bigger or smaller doll, this doll is 4 inches tall. Just make sure the gauge is rather tight so you won't see the stuffing though your knitting.

## Abbreviations:

- Kfb – Knit into the front & back of the same stitch, increasing one stitch.
- Ssk – Slip the first two stitches off the left needle onto the right needle as if to knit. Insert the left needle into the front of these two stitches & knit them together.
- K2tog – knit two together

## Body:

Cast on 6 stitches. Divide between 3 needles. Join together to knit in the round being careful not to twist. Place a marker between your first & last stitch to mark rows.

Pull your cast on tail inside and weave it in. Also start stuffing the body, stuff it pretty tight to get the shape you want. If you want to weigh down the bottom of the doll so it will stand easier, add a rock or some other weight to the bottom before stuffing.

Row 47: ssk, k1, ssk, k1, ssk, k2, k2tog, k1, k2tog, k1, k2tog, k6 (18 stitches)

Row 48: knit

Finish stuffing the body if needed and stuff the head as much as you can.

Row 49: ssk, ssk, ssk, k2tog, k2tog, k2tog, k6 (12 stitches)

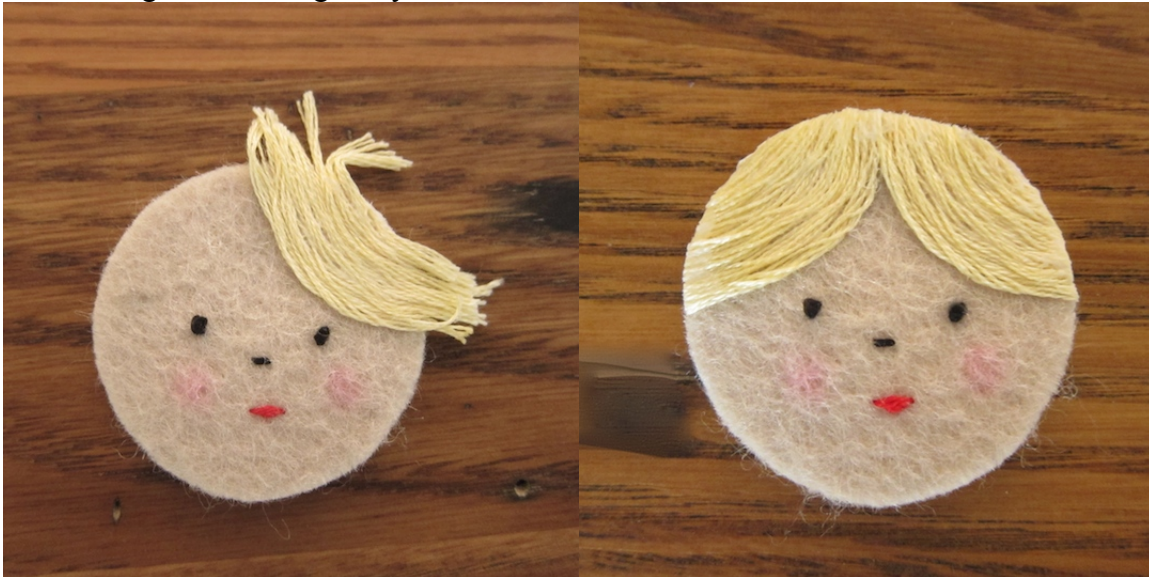

Row 50: ssk, ssk, ssk, k2tog, k2tog, k2tog (6 stitches)

Add any additional stuffing you need for the head. Cut yarn leaving about an 8-inch tail. Thread tail onto a tapestry needle & thread through the 6 stitches on the needles. Pull tight & weave in the end.:

### **Make the Face:**

Cut an appropriate sized circle from the felt for the face. I used a spool of thread to draw mine. Embroider on eyes, nose and mouth. I did single French knots for the eyes, a small straight stitch for the nose and three straight stitches for the mouth. Color small circles with the pink colored pencil for the cheeks.

For the hair, draw guidelines with pencil where you want the hair to be. Fill that area in carefully with glue. Lay pieces of embroidery floss slightly longer than the face across the glue in the direction you want the hair to go. A straight pin is handy to help move the floss into place. Let dry and trim the hair to the edge of the face. Add a little extra glue at the edges if you need it.

Glue the face to the front of the doll (The back is the line of 6 stitches you did at the end of every row, the front is the knit section between the last ssk and first k2tog.)
